FATAL ACCIDITY.—On Monday a fatal secident occurred on the Chicago, Fond du Lac and St. Paul Railroad, a short distance west of Woodstock, by which two men were instantly killed. A gravel train was backing along the road, and came into collision with a couple of steers, who jumped upon the track, and by which the hindermost can was thrown off the track. The men were caught beneath it. We did not learn their names.

of the one they presented, atter a convention of the Free State party had calmly and deliberately concluded to take no part in an election of the result of which has all along been known to be fore-ordained.

But still the motive that induced the proposition was unriturdent, and the proposition is default to the secretary Stanton replies in a manner which notitier good sense nor courtesy would suggest. The substance of this nature is that a retieration of what he has herotolore maintained. That the bagus laws are possessed of brieding force and must be obeyed; that the Government, both Territorial and Federal, indores the register law, and that the Constitution adopted by the June Convention will be sanctioned by the "powers that be."

This is nothing more than the Free State party night have expected. It now only remains for the Pro-Slavery party to go to the polls on the third Monday in June, sleet Pro-Slavery delegates to the Constitutional Convention, have that Convention draft a Pro-Slavery Constitution, and, without allowing the people to vote, present it to the first Pro-Slavery Constitution, and, without allowing the people to vote, present it to the first Pro-Slavery Congitation, and, without allowing the popule to vote, present it to the first Pro-Slavery Congitation, and that the confliction to a fair vote in the Territory.

This is "sweetest music" to the Pro-Slavery partitions, but I am greatly mistaken it they won't hear some "discordant strains" before it is all consummated.

now high prices should be at any given time, is but within the limits of human sagacity to deter-mine; but we think we may with good reason assert that there should have been, within the last few years, a great, and unprecedented rise in prices, because we can point to great and unprecedented causes for it. Among these we will mention but two, which we deem the most important. They

A LAST GLANCE AT THE REGISTER ACT.
In looking over the bogus set providing

The influx of gold, and the wonderful development of the country by railroads and other public works. Either of these is sufficient to cause a great and remarkable rise in prices. Every man who knows what the rise or full of prices depends on would have foresten the causes for it. It the immense amount of gold which has been flowing as steadily into all the charmels of commerce from California and Australia, had not carried up prices, it would have been, the strangest thing ever known in the history of commerce. And we should not be alarmed because a well-known cause its producing its well-know effects. The same thing may truly be said concerning the outlier and unprecedented change which has been wrought in our country, by its various pathle works and insprovements, especially by railroads. The north-west shows the grandest results in this respect, and could any man of solid judgment and gold sound sense, have been shown five years ago this great portion of our country, with its unrivalled maiseral, agricultural and manufacturing resources, then lying comparatively wisse and unimproved, ignote from market, and with few inhabitants, and been asked what would be the effect on the gipces

any person and the act shall be subjected to make and imprisonment.

But the question is, if a person would wind the the act by voting, whether his name was registered or not. Section 5th says be would; Section 11th that he would not.

"Under which King, Benzonian!" Of course this reasoning is as superfluous as it would be to point out the thousand and one inconsistences, absurbities and contradictions with which the Registry Act abounds, to say nothing of its injustice and open violation of the Organic Act and of the Prderal Constitution.

which it has been filled would the answer of solid judgment and good sense have put the rise in the price of real estate at a lover figure, than it has reached to-day? We speak not of particular spots where there may be speculation, but of the average prices through the whole north-west.

And if, in addition to this sanid-knormons, entirely unparalleled growth and development of the north-west, which, should by all mason, and, experience produce a rapid and unparalleled rise in prices, the man of good sense and judgment, had also been tolle of the inflax of gold, occurring at the same tiris, and positing prices up still higher, would henother so that in the same tiris, and positing prices up still higher, would he not have said that they must go up so high us to sharm mon of prudence, and to astonish and same all? Prices could not help going up in the north-west, and especially the prices of real estate, during the last few years. How high they should be, what is the exact point where legitimate rise stops, and speculation begins, no man can tell. But

ods by themselves.

Bobt. J. Walker, Isoverimor of Kanas, is almost daily expected in the Territory. It is said that he will be excompanied by Schutor Bigler, as a special emissary of the Administration, sent for the purpose of examining into Kanasa matters, and reporting forthwith to "Jeems" of the White House.

Thave lost faith in all this fold-de-rel of the white the control of the whi There lost faith in all this fol-de-rol or-the-pliant, service, and time-serving Chief Execu-tive. I don't believe he scales to know the truth about Kansas, or he might have found it out before this. If Mr. Bigher, however, has been sent out for the abovementioned purpose, why he will affiliate and associate with the most rabid and fanatical opponents of the Free State-party, and taking their word for gospel, re-turn to Washington with dismal accounts of the descrease situation in which the "National
